 k-kiran2003   Kiran Chauhan

SKILLS

- **HTML, CSS, JavaScript, Bootstrap**
- **Java**
- **MERN**
- **Git , GitHub**

EDUCATION

- BCA| GNDU College Verka Amritsar   *80%| (2024)*
- XII (PSEB) | Government Girls School Mall Road   *97%| 2022*

PROJECTS

- **Task Manager** simple task management app created with HTML, CSS, and JavaScript that allows   users to add and delete tasks. The project demonstrates effective use of DOM manipulation in JavaScript, along with responsive design principles using CSS.

- **Simon Says Game**
  The game challenges players to follow a sequence of coloured buttons that increase in length with each round. Players must replicate the sequence exactly as shown to continue; if they make an error, the game ends. The project uses JavaScript for game logic, HTML for the structure, and CSS for the design.

- **Wanderlust** – Travel Listing Platform

  - Built and deployed a dynamic travel listing platform using core MERN technologies (excluding React)
  - Implemented features such as user authentication and listing management
  - Project focused on mastering back-end development, API integration, and deployment
  - Planned enhancements: category-based search, map integration, and payment gateway

ACHIEVEMENTS/CERTIFICATES

- **certification**

Hosted National Science day at college and secured first position in PowerPoint presentation -28 Feb 2025
